Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 03 December 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Specification

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 41-44 and 47-50 are rejected under 35 U.S.C. 102(b) as being anticipated by Blankenburg (US Patent 5,728,325). Blankenburg discloses the claimed limitations as follows: in a method of gas assist injection molding, the step of injecting a super low temperature nitrogen gas into the molten plastic, wherein the temperature can be between -40 and -320°F (-40 to -200°C) (column 5, lines 31-48). This temperature range overlaps the ranges claimed in claims 43, 44, 49, and 50.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 45, 46, 51, and 52 are rejected under 35 U.S.C. 103(a) as being unpatentable over by Blankenburg (US Patent 5,728,325). Blankenburg teaches the basic method claimed as follows: in a method of gas assist injection molding, the step of injecting a super low temperature nitrogen gas into the molten plastic, wherein the temperature can be between -40 and -320°F (-40 to -200°C) (column 5, lines 31-48). Blankenburg further teaches that the pressure maybe be any desired pressure depending upon the requirements of the injection molding operation (column 5, lines 40-42). It would have been obvious to a person of ordinary skill in the art at the time of the invention to chose a desired pressure and

temperature, such as -25°C, and pressure, such as that claimed, in order to maximize the cooling effect of the nitrogen gas and the shape of the cavity in the molten plastic. The motivation to modify Blankenburg is taught by Blankenburg, that the pressure can be any desired pressure.

Allowable Subject Matter

5. Claims 1, 2 and 31-40 are allowed.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Oren (US Patent 6,666,999) is of interest.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Suzanne E. McDowell whose telephone number is (571) 272-1205. The examiner can normally be reached on M, W, Th 6:30-4.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael P. Colaianni can be reached on (571) 272-1196. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
